

The Desmos Graphing Calculator is on the ACT State & District and PreACT Online Suite of Assessments

ACT State & District: Desmos Graphing Calculator

PreACT Online Suite of Assessments: Desmos Graphing Calculator

The Desmos Graphing Calculator is free for anyone to use at desmos.com/calculator. Free apps are also available for Chromebooks, iPads, iPhones, and Android phones and tablets. Please note that the testing calculator will differ from Desmos Studio's standard calculator. Use the chart below to take a look at some of the differences between calculators.

Note: Our new regressions feature and complex mode will *not* be available on ACT's SY 2024-2025 assessments.

Calculator	Feature	Testing Calculator	Standard Calculator
Graphing	Images, folders, and notes	Disabled	Enabled
	Audio Capabilities	Disabled	Enabled
	Default Angle Mode	Degrees	Radians
	<u>Log Axes</u>	Disabled	Enabled
	Advanced Functions trig: csc, sec, cot, arccsc, arcsec, arccot, csch, sech, coth, arccsch, arccoth, arcsech stats: mad, cov	Disabled	Enabled

If you'd like to practice with the testing version of the graphing calculator, which is configured with the changes listed above, visit desmos.com/testing. All the Desmos calculators are designed to be accessible for students with low vision or who are blind. For more information, visit desmos.com/accessibility.
